Boarding Agreement

Vaccinations

For your pet's safety and the safety of other boarding animals, we require all animals to be up to date on vaccinations during their stay here. Required vaccinations for dogs are the Distemper/Parvo combination (DHPP), Rabies, and Bordetella. For cats, we require the Feline Distemper Combination (FVRCP) and Rabies; we strongly recommend being current on the Feline Leukemia vaccination. If your pet is not up to date on these vaccinations, we will vaccinate them at the expense of the pet owner; this will include an exam fee if the pet is due for one or if the veterinarian on staff has never seen the pet.

Health Conditions/Medications

The staff must be made aware of any current or pre-existing health conditions your pet has. If medications need to be given to your pet, they should be in their original container with instructions for dosing clearly labeled.

Liability

We will take every precaution to assure the safety of your pet. Regardless, all animals are left at the risk of the pet owner. In the event of an injury or illness, the staff will contact a veterinarian. If medical treatment is needed it will be provided to the pet at the expense of the owner.

Abandonment Clause

If in the event that an animal is left at the facility 10 days past scheduled pick-up without payment and/or notification, the pet will be considered abandoned and Animal Clinic of Tomahawk has full rights to the pet and the ability to relocate the pet.

I acknowledge the above boarding agreement for all of my pets that will be boarding here over the next year.
